Course Objectives	Teaching the two and three-dimensional geometric elements, the geometric configuration capabilities that can build infrastructure design, and the solution of the problem intersection. It aims to develop the ability to think in three dimensions.
Course Learning Outcomes	<ul style="list-style-type: none"> • Having the ability to think in three dimensions. • The ability to solve a complex three-dimensional geometric problems. • Solutions of different positioning of objects and the projection of the intersection. • To solve the problems of the real size of the level and to provide a model infrastructure. • Solving problems of coded geometry, and to be able to make the sloping land arrangements.
Course Contents	The concept of projection, point, right, level, accurate and specific identification of the plane and the surface intersections, projections on different objects, relationships and problems, expansions.

WEEKLY SUBJECTS AND RELATED PREPARATION STUDIES

Week	Subjects	Related Preparation
1	The concept of projection, point, right, Explaining the concept of the plane.	Related Chapters of Course Sources
2	Recipe correct and Projections	Related Chapters of Course Sources
3	Definition and characteristics of the plane and Projections	Related Chapters of Course Sources
4	Relationships of objects, types, point and right	Related Chapters of Course Sources
5	Relationships between different objects	Related Chapters of Course Sources
6	The shadows of created and own objects	Related Chapters of Course Sources
7	Mid-term Exam	Related Chapters of Course Sources
8	Two points perspective	Related Chapters of Course Sources
9	Analysis of two points of the interior perspective	Related Chapters of Course Sources
10	Analysis of two points of the interior perspective	Related Chapters of Course Sources
11	Drawing interior with two escape point perspective	Related Chapters of Course Sources
12	Drawing outdoors with two escape point perspective	Related Chapters of Course Sources
13	Drawing interior with one point perspective	Related Chapters of Course Sources
14	Drawing outdoors with one point perspective	Related Chapters of Course Sources
15	Final Exam	Related Chapters of Course Sources

GENERAL PRINCIPLE RELATED WITH COURSE

Dear students,

In order to be included, learn and achieve full success that you deserve in the courses you need to come well prepared by reading the basic and secondary textbooks. We are expecting from you carefully to obey to the course hours, not to interrupt the lessons unless is very indispensable, to be an active participant on the courses, easily to communicate with the other professor and classmates, and to be interactive by participating to the class discussions. In case of unethical behavior both in courses or on exams, will be acting in framework of the relevant regulations. The attendance of the students will be checked in the beginning, in the middle or at the end of the lessons. Throughout the semester the students who attend to all lectures will be given 15 activity-attendance points in addition to their exam grades.
